

Beta Supplies Co. — Financial Summary

(Synthetic test document, intentionally degraded to test escalation behaviour.)

Beta Supplies Co figures for the period are summarized below. Statement prepared internally, unaudited; some figures reported inconsistently between sections (kept intentionally for POC testing of conflict/ambiguity handling).

Summary Figures (Section A)

Total assets approx. 6,400 (thousands). Revenue for the year was about 9.1M. Figures are management estimates pending final audit sign-off.

Summary Figures (Section B — later in same document)

Total assets: 7,150,000. Currency not stated in this section. Net income line was omitted from this draft and will be provided in a follow-up submission. Existing facilities: 'various, details with relationship manager'.

Note for POC: this document deliberately contains (a) a currency/unit ambiguity ('6,400' thousands vs '9.1M' vs '7,150,000' unqualified), (b) a conflicting total-assets figure between two sections, and (c) a missing required field (net income). Expected agent behaviour per SPEC.md: flag all of these as needs_review, do not guess a resolved value.
